

I have crafting operations setup but nothing is being restocked.

There are only three reasons why crafting won't restock:

- Profit: Crafting will only restock if it is profitable to do so - check your minimum profit setting.
- Min Restock Quantity: Crafting will only restock if it can craft at least your minimum restock quantity so if you have this set to 2 it must be able to craft at least 2 up to your max restock quantity.
- Max Restock Quantity: Crafting will only restock up to your max restock quantity. If you are in a guild and you don't want items in the guild bank to count make sure you ignore the guild in the crafting options under 'Inventory Settings' (This is the most common reason why crafting will not restock).

You can use `/tsm restock_help [ITEM]` to help figure out why an item isn't being restocked. If you're still stuck, include a screenshot of this command in a message on our Discord.
